The Enlightenment In Europe History
Enlightenment, French siècle des Lumières (literally "century of the Enlightened"), German Aufklärung, a European intellectual movement of the 17th and 18th centuries in which ideas concerning God, reason, nature, and humanity were synthesized into a worldview that gained wide assent in the West and that instigated revolutionary developments in art, philosophy, and politics.

Enlightenment | Definition, History, & Facts | Britannica
The Enlightenment was both a movement and a state of mind. The term represents a phase in the intellectual history of Europe, but it also serves to define programs of reform in which influential literati, inspired by a common faith in the possibility of a better world, outlined specific targets for criticism and proposals for action.

History of Europe - The Enlightenment | Britannica
The Age of Enlightenment (also known as the Age of Reason or simply the Enlightenment) was an intellectual and philosophical movement that dominated the world of ideas in Europe during the 17th and 18th centuries.

Age of Enlightenment - Wikipedia
The Age of Reason, as it was called, was spreading rapidly across Europe. In the late 17th century, scientists like Isaac Newton and writers like John Locke were challenging the old order. Newton's laws of gravity and motion described the world in terms of natural laws beyond any spiritual force.
