customer experience !. Many lean service tools and techniques are presented in the book. It is a toolbox of different approaches for different circumstances, rather than a narrative of a single "best" method. The book does have some weaknesses - for me these are in its discussion of customer value, and performance measures for service.

**Systems by John Bicheno**

Takt-time is one of the Lean techniques in the Lean Toolbox. It is the frequency at which a product or service must be completed in order to meet customer needs. The formula for Takt-time is:  
$$\text{TAKT Time} = \text{Available Time} / \text{Required Output}$$
